Design that implements aesthetics and functionality equally: the mirror cabinet and the bathroom sink ensemble dominate the interplay of shapes in virtuoso style. The bathroom sink with a clearly accentuated basin depression impresses visually and with a lot of storage space. Thanks to thin material thicknesses, the bathroom sink and the floor unit are a perfect unit: strong and light at the same time.

Genuine wood in all variants in combination with natural textiles such as linen always go well together in the bathroom.

SURFACES

You can find more materials, colours and decors with which you can give the surfaces of your Coco bathroom furniture an individual design in the product appendix, which starts on page 143.

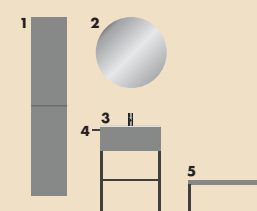

WELL POSITIONED

When it comes to the bathroom accessories, too, an interplay of geometric shapes – here with white vases in a matt look – enlivens every bathroom.

Coco solves the storage space question masterfully. Whether open, closed, wall-hanging or standing storage surfaces – there is a perfect, attractive solution for all requirements. This is also ensured by the rounded, black profile strips at the base and the complementary aids, such as the elegant hand towel holder or the inviting storage bench.

Coco achieves visual clarity with finesse with purposefully playful accents on surfaces, fronts and veneer grain. The fronts are available in a high-gloss paint or matt paint look as well as in a naturally soft seeming veneer. And here, the consciously contrastively arranged grain on the drawers delivers a charming style statement with a wink.

Product overview

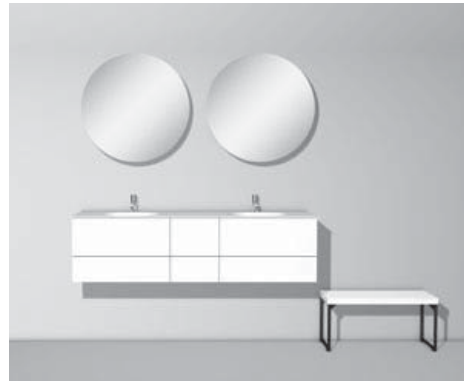

Coco mediates charmingly between two worlds: Calm, clear and reduced; but as well individual, highly design orientated and functional.
